Report on U. S. Civil Rights

A request for additional information such as that furnished recently on suppression of U. S. Civil Rights is forthcoming from the President's Advisory Committee on U. S. Civil Rights.

This Group is interested primarily in criticisms of our minority group policy. They are interested in collecting a really imposing array of quotations from radios around the world from within countries having our form of Government and adhering to our Democratic principles as well as from within those countries which do not.

I have promised this information tentatively for Monday, August 4, 1947. Please start research on it so as to furnish the report on that date.
